

SUDHEER KUMAR PILLI

Angular Developer | Figma/PSD-to-Code Specialist | UI/UX Problem Solver

Hyderabad, India | +91 8801113741 | sudheer219@gmail.com | sudheer219.github.io | Open to Remote / Relocation

PROFESSIONAL SUMMARY

Senior UI Developer with 20 years in software/product development (2006–Present) and 12+ years of hands-on Angular delivery for enterprise retail, supply-chain, and financial-services platforms — including a two-phase production migration from Angular 8 to Angular 21. Known for turning Figma/PSD designs into pixel-perfect, responsive HTML/CSS and for hunting down and fixing UX/UI bugs that others miss. An individual contributor who informally mentors junior team members, communicates clearly with designers and stakeholders, and uses AI-assisted tools (GitHub Copilot) to move fast without cutting corners.

CORE TECHNICAL SKILLS

UI Development & Styling: Figma-to-Code, PSD-to-HTML, Pixel-Perfect CSS/SCSS, Responsive Design, Tailwind, Bootstrap, HTML5, CSS3

Angular Development: Angular (v8 → v21, incl. major version migrations), PrimeNG, Component-Based Development, JavaScript, TypeScript (working knowledge, growing)

React: Hands-on via personal projects

Practices & Tools: UX/UI Bug Diagnosis, Accessibility (WCAG), Git, Jira, Jenkins, Agile/Scrum, GitHub Copilot & AI-assisted development

Design & Data: Figma, Adobe XD, Sketch, Axure, Wireframing, MS SQL Server, MongoDB

PROFESSIONAL EXPERIENCE

Associate Technical Consultant (Senior UI Developer) — Colruyt Group, Hyderabad *Aug 2018 – Present*

- Build and maintain Angular Single Page Applications for enterprise retail and supply-chain products, serving as the single point of contact for the Colruyt Style Guide across all in-house applications.
- Contributed to a two-phase migration of legacy applications — Angular 8 to 17, then 17 to 21 — as part of a 3-person team, resolving third-party package incompatibilities and deprecated APIs while keeping applications stable.
- Adopted NX workspace for a more organized, domain-based project structure, and Angular Signals to modernize reactive patterns beyond RxJS subscriptions.
- Informally mentor and guide junior engineers and designers on UI implementation quality as an individual contributor, within an Agile/Scrum delivery model.
- Convert Figma and PSD designs into pixel-perfect, responsive HTML/CSS, and are the go-to person on the team for diagnosing and fixing UX/UI bugs.
- Read and integrate REST API responses to wire Angular components to real backend data; use GitHub Copilot to generate mock APIs and services when backend endpoints aren't ready, keeping development unblocked.
- Collaborate directly with Solution Analysts, full-stack developers, and business stakeholders, using AI-assisted tools to accelerate delivery without sacrificing quality.
- Embedded WCAG accessibility standards into the standard development workflow.

Lead Technology Engineer — Synechron Technologies Pvt. Ltd., Hyderabad *Jul 2017 – Aug 2018*

- Built and managed Angular components, services, routing, and shared utilities for financial-services client engagements.
- Translated wireframes and prototypes into working Angular UI, bridging design and engineering.
- Led technical reviews and design critiques that raised UI quality across delivery teams; managed issue resolution through JIRA under Agile process.

Senior Front-End Engineer — IMSI India Pvt. Ltd., Hyderabad *May 2016 – Jul 2017*

- Owned design and development of software fixes, enhancements, and new front-end components/systems.
- Built responsive, accessible interfaces in HTML5, CSS3/SCSS, and JavaScript from UX wireframes and high-fidelity prototypes.
- Resolved JIRA-tracked defects daily and conducted peer code reviews to uphold front-end coding standards.

UX/UI Developer — Way2Digital, Hyderabad *Dec 2013 – May 2016*

- Mentored and led 3–4 developers, owning the full front-end development cycle from prototype review to production.
- Delivered pixel-accurate, cross-browser builds in HTML, CSS, and JavaScript using Agile methodology across multiple client verticals.

Web Designer — Iridium Interactive, Hyderabad *Aug 2011 – Jul 2013*

- Built interfaces, websites, and intranet portals in HTML, CSS, and JavaScript for Google internal projects.
- Partnered with back-end developers on integration and delivered prototypes translating client briefs into working UI.

Graphic & UI Designer — Pruthvi Cybertech, Hyderabad *Jan 2006 – Jul 2011*

- Led a team of 5–6 graphic and junior web designers; laid the foundation of a 20-year front-end/design career.
- Designed and implemented web layouts in Adobe Flash and early HTML/CSS for real-estate clients and branding campaigns.

EDUCATION

Bachelor of Computer Science — Osmania University, 2004 | Diploma in 2D Animation — Arena Multimedia
